

I am **Bianca Lavinia Liclican**, a Dual BA student with Sciences Po and the University of Sydney, majoring in Political Humanities, International Relations, and Visual Arts.

I grew up with a love for the environment and a passion for its conservation and protection, especially the safeguarding of oceans and marine life.

I have always believed that there is a 'symbiotic' relationship between the people and the environment where if you help in the protection of the natural environment, it helps the people.

Sustainable solutions to the problems nature faces can positively affect and help in resolving the problems people face.

I am also very interested in engaging in visual arts, as a sort of artistic activism, as it has a transformative power that can help educate and foster necessary awareness and social consciousness regarding issues like that which **TAF – the Animal Fund** tackles.
