- What did you like the most about your internship: I loved being able to play the educational games with the kids at the beach cleanup in the fall. I also really enjoyed attending the TAF meetings and learning more about the organization and different environmental initiatives.

- Did your internship live up to your expectations? This internship exceeded my expectations. I loved working with TAF. Despite not being able to commit a lot of time to the internship, I feel like I gained so much knowledge, and am deeply grateful for that.

- Can you recommend others to apply to TAF? I will absolutely recommend this internship to students in the year below me who have helped with the environmental organization on campus.

- Which skills did you learn? I mostly learned about environmental issues, environmental education and how to organize events such as the beach cleanup.

- Can your internship and what you learned be of use for you in the future? Absolutely! I hope to work with other environmental organizations, so my experience with TAF will certainly help me.

- Other comments: Thank you, Berit and Liv, for such a wonderful opportunity. I hope to see you soon!
