

Evaluation form - Internship at TAF- The Animal Fund

Name: Alex Birule
University: SciencesPo Paris, Menton Campus
Period of Internship: October 2022 - May 2023
Hours of Internship : 60 hours
Tasks given : applying for funding, editing videos, helping in interventions in schools, helping in the events, filming and taking photos, drafting e-mails
Tasks completed : everything above
What did you like the most about your internship: the support and trust that I received since day one, assigned tasks were important and I am grateful to have been trusted and believed in to handle grants applications and other documents
Did your internship live up to your expectations? Not only it lived up to my expectations but certainly it went way beyond it, I truly didn't expect that it would be so special to me but now I can't imagine how my experience in this school year would be if I didn't join TAF
Can you recommend others to apply to TAF? Absolutely, everybody who is interested in marine biodiversity and environmental studies should definitely join TAF!

Which skills did you learn? public speaking, giving presentations working with children, Video editing, communications and so many insights on marine biology, environment, fish and other species

Can your internship and what you learned be of use for you in the future? Certainly as I am planning to work in the field of sustainable development, this internship was an incredible starting point

Other comments: Thank you so much to Berit Legrand, who believed in me, trusted, was patient and forgiving when I was making mistakes and in general so supportive! You taught and inspired me like nobody else. Thank you for putting everything in TAF and volunteers like me, I am so grateful for this chance and opportunity to work with you and TAF

Date 12.05.2023 Signature Alexandre Bielle
