

# Evaluation form - Internship at TAF- The Animal Fund

**Name:** Nassim

**University:** Sciences Po Paris - Menton campus

**Period of Internship:** 01/10/2024 to 24/04/2025

**Hours of Internship :** Variable – 66 hours in total

**Tasks given :** Co-writing a report on whale-watching as well as filling a comprehensive database, raising awareness at the Monaco Yacht Club (with the Prince’s presence), intervening in primary schools on behalf of TAF to inform young generations, filming myself emphasising my experience at TAF for social media, attending marine-centred conferences at EDHEC...

**Tasks completed :** All the aforementioned tasks

**What did you like the most about your internship:**  
What I enjoyed the most was the liberty that was given to us. It was not felt as something imposed, as the TAF team asked us at the very beginning what topics we were interested in the most.

**Did your internship live up to your expectations?**  
Absolutely!

**Can you recommend others to apply to TAF?**  
That’s definitely what I will do.

### Which skills did you learn?

This internship has improved my ability to work in a team, but also my educational skills by simplifying my sentences so that young children can fully understand them and be aware.

### Can your internship and what you learned be of use for you in the future?

Absolutely. It will definitely contribute to my future career and projects.

### Other comments:

I really enjoyed this internship. Thanks again for giving me such a great opportunity!
